Disclaimer

Note this is simply an indication produced to the best of our ability and resources. This is by no means an endorsement to drink or consume the water in your area without taking reasonable pre-cautions. Although we produce these results in very painstaking way we acknowledge that due to the age of our piping system quality of water may differ even in areas we may have checked.

We will endeavour to keep the information up to date and correct but make no representations or warranties of any kind, express or implied, about the completeness, accuracy, reliability, suitability or availability with respect to the flood data. Any reliance you place on such information is therefore strictly at your own risk.
